Extreme Versatility

An intuitive FX selector allows you to choose from the 16 single or multi-effects that suit your music, while the versatile Parameter and Tap/Select functions give you the ultimate control over a wide range of parameters.

Your Connection to Amazing Sound

The M100 has two modes of operation – mono or stereo. While the input connectors accept both, balanced and unbalanced 1/4" cables, the output features impedance-balanced 1/4" TRS connectors. M100's stereo Input level control with LED level indication ensures precision adjustment for the optimal signal integrity.

Additional Features and Build Quality

Dedicated Mix Balance and Output Level controls make it so very easy to quickly dial-in the perfect sound. And if you're using the M100 live, the footswitch connector provides easy on/off switching (footswitch not included). Highest-quality potentiometers, switches with clear status indication and high-resolution 24-bit AD/DA converters ensure exceptional sonic performance.
